

Dear Robert and Angelo,

I do apologize for being so tardy with this response as I have wanted to express my appreciation for the wonderful results achieved with the cabinetry for our new home. It was rather complex and unique and it did succeed in replicating the ideas of the architect.

Therefore, I would very much like to recommend R & A Cabinets to other clients and also to commend you both on your professionalism, attention to detail, thoughtfulness and ingenuity.

If I can be of further assistance to you, I would be more than happy to assist.

Mark and I wish you and your families every success for the future as well as good health and happy times.

I look forward to doing business with you again when the opportunity arises.

Yours sincerely

Susan White
